DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stefan Koeschmieder on October 5, 2006.

2. The amendments are as follows:

- a. In claim 2, second line from last, replace "anunfunctionalized" with —a nonfunctionalized—
- b. In the abstract, in line 2, remove "and a process for its preparation"

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: The closest prior art of record, Heederik (WO 02/062894), Garcia (US 6,465,566) and Garcia (US 6,436,540), comprise the instantly claimed components and other required additional ingredients such as binder and fillers, polyfluorooxetanes, and polyurethane-polyvinyl mixtures, respectively. Newly found art, Olson (4,973,709) also recites the instantly claimed components however further contains octane (column 6, example 2). Newly

found art, Miksovsky (US 4,025,503), teaches combinations of aziridines and DABCO but does not include a polar solvent (column 3, lines 15-45). Since the references do not teach or fairly suggest compositions consisting of at least one polyfunctional aziridine compounds, 1,4-diazabicyclo[2.2.2]octane and a polar solvent, the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
